

Frontend Web Developer:

Experienced in creating responsive and interactive user interfaces.

Sameer Sayyed |  +91 9653401372 | [Mail](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS:

- JavaScript
- React
- Tailwind
- SQL
- Java
- GSAP

Projects:

- **Spotify Clone**

Built a Spotify-inspired web application using **ReactJS** and **Material UI**, showcasing a clean, responsive UI. Integrated **Spotify Web API** to fetch and display user data, including username, profile logo, playlists (names, logos, descriptions), and song details (name, description, and photo). Focused on frontend development and API integration, with ongoing work on adding song playback functionality.

- **Duo Studio**

Replicated the frontend of an award-winning dynamic scrolling animation webpage from Awwwards.com, using **Scroll Trigger** and **GSAP** libraries to achieve smooth transitions and interactive effects. This project demonstrates strong skills in web design and frontend development through precise animation and design replication.

Education:

HSC - Science

2020-21

Bhavan's College, Andheri

Bachelor in Information Technology
